Funded by the  
European Union

10  
YEARS

### CONTEXT

The EU P2P Export Control Programme for Dual-use Goods aims at cooperating with strategic partners to jointly enhance the effectiveness of dual-use trade control systems worldwide by sharing experiences and best practices and supporting compliance with international obligations, most notably under the UN Security Council Resolution 1540.

### OVERALL OBJECTIVE

The project's overall objective is to contribute to the establishment, consolidation or update of effective strategic trade control (STC) systems for dual-use goods by offering a long-term perspective for cooperation and mutual economic benefits of export controls convergence. The project offers technical and legal cooperation activities tailored to specific priorities identified with partner countries.

### SPECIFIC OBJECTIVES

1. Contribution to the increase of key stakeholders' and counterparts' awareness of the implementation and challenges of effective dual-use trade control systems;
2. Contribution to the drafting, amending or updating of trade control legislation, including the adoption of national control lists;
3. Contribution to the setup, implementation, review and operation of effective licensing systems, and to the enhancement of customs, investigation and prosecution procedures;
4. Identification of and outreach to key stakeholders and the wider community and building of networks;
5. Regular coordination and exchange with other cooperation programmes and relevant international organisations.

### ACTIVITIES

1. Awareness raising events;
2. Legal workshops;
3. Case-studies and technical trainings;
4. Industry and academy outreach events;
5. Regional, trans-regional events and international conferences and dialogues.

### ACHIEVEMENTS

*The project is ongoing.*

### AMOUNT

€ 2.4 million
