# HOW WAS THE JOINT TRAINING DECIDED ?

## THE FIRST ACTIVITY IN LIBYA STARTED IN APRIL 2024

Funded by  
the European Union

With the support of

**LIBYA is member of the EU CBRN COE since 2014, but no project was implemented.**

First technical mission of the OSA NAS in April 2024 to identify the expectations of Libye.

**The CWC, the Detection equipment and the control of chemicals were in the center of the exchanges.**

Funded by  
the European Union

## SECOND OFFICIAL VISIT AND ASSESSMENT OF THE CBRN NEEDS: October 2024

**Niccolò Maracchi**, Deputy Head of Cooperation, Delegation of the European Union to Libya,  
**Julie Busch** the UNICRI Regional Coordinator and the OSA NAS.

During the CBRN assessment needs, the **CBRN national team** requested to organize a joint training session with Libya and Tunisia on the control of the CBRN agents at borders. Ms. Anne-Sophie Lequarré, the EU programme Manager approved it.

## Objectives

- Improve capabilities to collect and analyse information on CBRN substances and on the importers and end-users
- Enhance the import/export control of CBRN materials at the borders
- Enhance cross-border cooperation between Libya and Tunisia

**The training was performed by the Libyan and Tunisian trainers and the OSA NAS expert, January and February 2025.**

## Agenda

- The EU and international regulation and conventions of the CBRN agents.
- The CBRN national regulations.
- The CBRN equipment.
- The control of pesticides, drugs and precursors explosives and dual-use agents.
- The assessment of the national control at borders.

# Specific Training for TUNISIA on the Control of CBRN Substances at the borders: January 2025.

# Specific Training for LIBYA on the Control of CBRN Substances at the borders: February 2025.

## Results

- **Interactive Presentations:** Led by experts, these presentations provided in-depth insights into various controls-related topics.
- **Case Studies:** Real-world scenarios were presented to help participants apply their learning in practical settings.
- **Group Discussions:** These sessions fostered collaboration and allowed participants to share their experiences and insights.
- **Hands-On Exercises:** Practical exercises ensured that participants gained experience in key operational procedures.

## Lessons learned

- **GAP analyzis to assess the needs of the CBRN equipment.**
- **Perform new sessions of training with other countries to share the experiences.**
- **Set up the international framework of the dual use CBRN agents.**
